

Device Lifecycle Update: PNP-3000 Series

Link: <https://help.elitegps.com/device-lifecycle-update-pnp-3000-series/> Last Updated: January 16th, 2026

As part of our ongoing efforts to modernize and enhance our hardware offerings, the **PNP-3000 Series** has reached Discontinued status.

What This Means for You

- New orders for the PNP-3000 Series are no longer available.
- Customers currently using PNP-3000 Series devices can continue operating them without disruption.
- There is **no required action** at this time.

Recommended Replacement Options

For customers planning future expansions or hardware refreshes, the following device is the recommended alternative: **XT25**

This device provides a modern platform designed to support current and future needs.

Availability Timeline

The transition is effective immediately.

If you are planning future hardware needs or evaluating replacement options, your account representative can help ensure a smooth transition.
